TRADE CONTRACTOR COMPLIANCE

NEW TO MARKET

Compliance is big business: taxes, labor laws, licenses, workers' compensation, insurance, environmental issues, HAZMAT, employee safety, local and state regulations, federal laws, OSHA, etc. It's amazing these contractors find the time to keep out of trouble and still run a profitable business. They are successful because they depend on the information, services and products provided by direct marketers such as compliance publications and seminars, safety equipment and supplies, environmental compliance products, construction tools and supplies, insurance, vehicle and equipment sales and business management software products. Selections by employee size are also available.
