

## CANADIAN PLANT MANUFACTURING

This list consists of the go to person in all types of manufacturing facilities and businesses. The Canadian plant manufacturing database has managers and decision makers who are responsible for managing employees and operations, improving product and service quality to the customers, and implementing current manufacturing principals including TQM, Safety and Prevention maintenance. Select by SIC code to target your prospects, making your marketing dollars work for you. Recency of 12 months provides most current contact names.

**Total Database -36,766**

Available Selects \$15/M

SIC Codes 20-39	14,508
