## PLANT MANUFACTURING

This Plant Manufacturing database provided by Byrum & Fleming consists of plant managers identifies the key person in all types of manufacturing facilities and other businesses. These Plant Managers lead, direct, and develop their manufacturing operations, personnel, and processes and are directly responsible for managing exempt & non exempt employees. It is the responsibility of the plant manager to build an active and engaging environment and to improve and grow the day to day operations within their plant manufacturing company. Implementing systems for improving quality to the customer as well as a working knowledge of modern manufacturing principles including TQM, preventive maintenance, safety management is key for successful plant managers. If your looking to target plant managers who specialize in mining, construction, food, petroleum refining, chemical and allied products, stone, glass & clay manufacturing you can reach your target market with our Plant Manufacturing database as well as many more facilities.
