WOMEN MEDICAL PROFESSIONALS

The women in the Women Medical Professionals list are dedicated health care professionals who have worked hard to achieve their professional designations. They have also penetrated what has been until fairly recently a male dominated profession. The file is selectable by either 3 or 4 line address. The Women Medical Professionals list is compiled from a multi-sourced database. This list will work well for professional publications, seminar & continuing education offers, business-to-business, and high-end consumer offers. Reach out to these Women Medical Professionals with your product or service that you are marketing to Doctors, Dentists, Nurses, or Therapists in your direct mail campaign.
